compilers

Final project

NOTE: '\n' didn't work on my system to create newline, but '%n' worked. This seems to be a java convention...

doesn't work

```
print "Hello,\neveryone!";
```

works

```
print "Hello,%neveryone!";
```

Running the interpreter

Linux

```
miniPL/bin/app <FILE_NAME>
```

Windows

```
miniPL/bin/app.bat <FILE_NAME>
```

Token regular expressions
